### PROJECTS

- **Credit Card Fraud Detection (Jan 2023 - Feb 2023)**
  - Developed a Machine learning model using a logistic regression algorithm to identify and prevent fraudulent activities in credit card transactions, achieving an impressive 97
- **House Price Prediction (Jun 2023 - July 2023)**
  - Developed a machine learning model for house price prediction using a regression algorithm, aiming for a model that achieves 91% accuracy in predicting house prices.
- **Restaurant Website (Dec 2022 - Jan 2023)**
  - I designed, and developed a restaurant website to provide customers with essential details about the restaurant, including its hospitality, menu offerings, and a convenient table booking section.

### TECHNICAL SKILLS

- **Languages** C++ (proficient), **Java** (proficient), **C** (proficient), **Python** (proficient), **HTML**, **SQL**
- **Tools and Frameworks** MATLAB,  $\text{\LaTeX}$
- **Machine Learning Tools** Keras, scikit-learn.

### SOFT SKILLS

- **Team Work**
- **Communication**
- **Presentation Skill**
- **Problem-Solving Ability**

### SCHOLASTIC ACHIEVEMENT

- **Goldman Sachs (Software Engineering Virtual Program: March 23rd, 2023) -**
  - My responsibility is to analyze a dataset containing passwords and determine the hashing algorithm used for encryption.
  - Once I identify the hashing algorithm, I am tasked with devising a comprehensive password policy for the company.

### POSITIONS OF RESPONSIBILITY

- **Organizational Involvement: (Nov, 2019)**
  - I had the pleasure of organizing a truly unforgettable event at our esteemed school, and I am thrilled to have played a key role as a dedicated member of the Function Committee.
- **Member of Clean Ganga Project: (Nov, 2019)**
  - I had the incredible opportunity to be part of the Clean Ganga Project, entrusted by my teacher to form a team of 15-20 dedicated individuals. With passion and dedication, we aimed to make a positive impact on the environment and revive the sacred Ganges River.
